Professional Summary

Software Developer excited at the prospect of collaborating with developers and designing mobile applications in a professional setting. Curious worker recognized by peers for my effective creative thinking and multitasking skills. Looking to apply my understanding of Web Programming and Scripting languages at your company.

SKILLS

Javascript - HTML + CSS - Responsive Programming - Bootstrap - Node.JS - React - AJAX - Python - Flask - Django - Microsoft Office + Microsoft Teams - SQL - C++ - Git - Github - vs code

Projects

Database Management Project, University of Southern Mississippi

- Worked in a group of 3, tasked to design a web application that connected to a database to collect required information from users

- I styled and programmed the web application with HTML, CSS, JavaScript

- Web app was connected to a MYSQL database with PHP and hosted with XAMPP

Senior Project, University of Southern Mississippi
2022

- Design, develop, and build a web application that would allow students to request and create appointments for exams and test proctors.

- Build the web event scheduler app with HTML + CSS, JavaScript, AJAX, bootstrap, JQuery, and custom API
